

Assembly Bill No. 49 Notification

In 2017, the State of Nevada Department of Education released a revised school performance framework using specific components of the state report card system to rate public schools across the state. Under this system, Equipo Academy has been rated as a **Five Star Middle School** and a **Four Star High School**. Index scores for Equipo Academy and surrounding open-enrollment public schools is provided below.

Effective July 1, 2017, Assembly Bill No. 49 required written notification of school performance to the parent or legal guardian of each pupil enrolled in certain charter schools and requires certain charter schools to post written notification on the school's website regarding the statewide system of accountability. The full text of Assembly Bill No. 49 can be found on the Nevada Legislature's website at <https://www.leg.state.nv.us/>

The table below lists Equipo Academy's school performance framework index score under the newest statewide system of accountability, as well as the scores of neighboring zone traditional public schools. Students zoned for these schools may always apply to enroll at Equipo Academy and the school is actively accepting applications for the next enrollment lottery. Similarly, Equipo Academy students and families have a right to transfer to the neighboring zone schools below and other schools in the Clark County School District at any time dependent on current zoning and following district enrollment procedures.

Assembly Bill No. 49 additionally requires the governing body of certain schools to hold a public hearing within 30 days of sending out a required notice. This requirement did not apply to Equipo Academy, but it is the school's goal to not only be one of the best public schools in East Las Vegas, but also in Clark

County and Nevada. Accordingly, Equipo Academy invites all members of the Equipo Academy team and family for discussion of our work at monthly parent meetings and for public comment at any governing body meetings. Please contact our office at 702-907-0432 for additional information.
